

LOUISIANA WATER

Louisiana water is blue
like a blue heron catching a fish in the lake,
like blueberries waiting to be eaten,
like the sky on a spring morning.

Louisiana water is sparkly
like glitter on Mardi Gras floats,
like sparklers on the 4th of July,
like the sun reflecting on the Gulf.

Louisiana water is green
like a swamp filled with water-lilies,
like an alligator swimming in the bayou,
like oak leaves blowing in the breeze.
